Professional Summary

Young and enthusiastic developer with strong communication skills. I am very professional, precise and detail-oriented. My virtues are persistence, reliability, accuracy and responsibility. Two things that also stand next to my name are – "outside the box thinker" and "open-minded". Due to constant technology growth, I am ready to learn new things and to improve my current knowledge. Also, I tend to observe things from a different perspective.

Employment history

Junior Frontend Developer, Software-Nation. Belgrade
Aug. 2018 – Present

- Developed, tested, deployed and maintained web apps.
- Provided effective troubleshooting remediation for web apps.
- Worked well independently and within a term setting.
- Effectively translated client requirements and designs into apps.
